faculty of computing| BCI Campus

Vidyartha College Kandy

G.C.E Advanced level - CCS
G.C.E Ordinary level - 4As|2B|3C

PROJECTS

IsuruCarService System

Team Project -Frontend Developer

- Developed and styled the user-facing part of the Isuru Car Service website, ensuring a professional and user-friendly interface. Utilized HTML5, CSS3, and Bootstrap 5 to create a fully responsive design that works seamlessly on desktop, tablet, and mobile devices.

HOSPITAL MANAGEMENT SYSTEM

Solo Project | C#, .NET Frameworks, MySQL

- Developed a desktop CRUD application to manage doctors, patients, appointments, and billing,
- Used Windows Forms with C # and connected to a MySQL database for data storage and retrieval

GPS base Bus Tracking System

Team Project -Frontend Developer

- React, Tailwind CSS: Built a real-time, single-page application to display live bus locations. This involved creating a dynamic UI and integrating it with live data feeds using modern web technologies.
